Request for Proposal (RFP)**

Psoriatic Disease: Improving Knowledge on Current Impact and Advancements in Disease Management (UCB.PsO1.Feb2020)

Background:	UCB, Inc., is a global biopharmaceutical company focused on the discovery and development of innovative medicines and solutions to transform the lives of people living with severe diseases of the immune system or of the central nervous system.
Key Identified Gaps:	Despite recent advances in therapy, many PSO and PsA patients continue to struggle with active disease, failing to achieve complete and lasting disease resolution across the multiple manifestations of psoriatic disease, which negatively impacts their quality of life, comorbidities and risk of disease progression.
Specific Interest of this RFP:	A multi-channel medical education program consisting of live CME (up to 3 spaced out throughout the year), enduring materials, and/or webinars that focus on: <ul style="list-style-type: none"> • Education on the evolving biology and targeted approach with psoriatic disease • Impact of comorbidities on quality of life, disease evolution, and optimization of treatment • Education on updated treatment guidelines, Treat to target approaches, and high efficacy endpoints • Understanding management of special populations (e.g. comorbidities, disease severity, PsA) for optimization of disease control, enablement of robust risk:benefit analyses, and empowering patients toward self-advocacy
Eligibility Criteria:	The program should target the US geographic region. The education must be accredited and abide by ACCME standards. If accepted, the provider must attest to the terms, conditions and purposes of an educational grant as described in the electronic UCB letter of agreement. See the FAQ document in the Grants section at https://www.ucb.com/our-company/funding/usa for the UCB letter of agreement content.
Clinical Area:	Medical Dermatology
Target Audience:	Dermatologists (MD/DO) who care for psoriatic patients
Outcomes:	The educational programs and enduring materials would expand dermatologist's knowledge on evolving psoriasis biology, current psoriasis controversies, interventions and outcomes, which will ultimately result in better care for psoriatic patients.
Expected Budget Range of Applications:	(USD) \$600K
Key Dates:	RFP release date: February 14, 2020 Proposal Deadline: February 28, 2020 <i>Please note the deadline is midnight Eastern Time</i> Review of Proposals by External Review Panel: N/A Anticipated Proposal Notification Date: March 27, 2020 Period of Performance: April 1, 2020 – April 1, 2021

	<i>Please note an interim progress report will be requested depending upon timelines of the program.</i>
